FUTINA®

Professional Switches and Sockets
Manufacturer since 1995

Guangdong Futina Electrical Co., Ltd was **established in 1995**, is a professional manufacturer and exporter who has **28+** years experience in researching, developing, manufacturing and selling wiring devices and electrical product.

FUTINA is located in Shunde, the famous township of wiring devices and electrical appliance in China, with convenient transaportation access to Leliu Port, Rongqi Port and Nansha Port.

FUTINA with industry zone of **80,000M²**, including injection workshop, hardware workshop, assembly workshop, moulding workshop. Over **1300** employees, the annual production capacity is **100,000,000** pcs. FUTINA has its own R&D team (**30+** engineers), with a rich OEM/ODM experience.

FUTINA has verified by both **ISO9001** and **ISO14001**, quality and environmental management systems. Since 2015, Futina laboratory center had gotten the **CNAS Certificate**, which granted the qualification of testing and verifying **9** essential national standards, all FUTINA products are implemented to comply with IEC standard. With perfect quality, excellent service and great reputation, FUTINA has more than **40,000** distributors nationwide, exports to more than **60** countries worldwide,and are greatly appreciated in a variety of different markets throughout the world.

▽ Hardware Workshop

There are 35 punching machines and 26 employees,
Monthly productivity 45 million pcs.

▲ Injection Workshop

There are 80 injection molding machines and 100 employees (two shifts).
Monthly productivity 40 million pcs.

Strength

▼ Assembly Workshop

There are 66 standardized assembly lines, 800 employees.
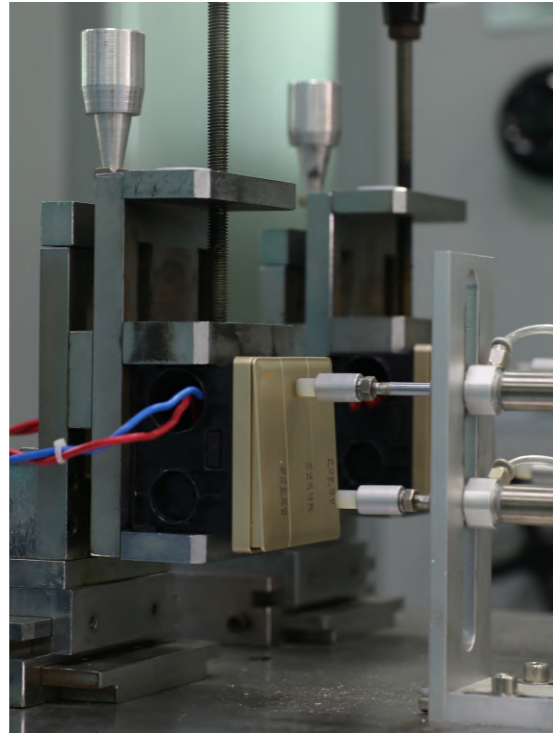

Monthly productivity 7.5 million pcs.

▲ Warehouse

It covers an area of 4000 square meters.

The storage capacity is 10 million finished products.

FUTINA laboratory got complete and professional wiring devices testing equipment. All test equipment are calibrate and maintain by professional institutions, to test under IEC standard accurately. The testing equipment includes lifespan test machine, plug and pull force tester, temperature rise tester, glow-wire test machine, salt spray tester, drop tester, as well as electronic components testing, etc, in addition to other areas equipment, such as LED lighting product tester, waterproof tester and other professional equipment.
